Five Fleas

Rasputina

Five fleas bend together
Against all odds
To form a new companyA new company, performing treachery
Translations, advice to givers
And other varied servicesStarting a new business at any time
Is always very, very difficult
But these guys had charismaThey had it, the extra X-Quotient
The pure, unadulterated chutzpah
That put them head and shoulders above the restWhat they lacked, however, was backing
So if you know anybody
Who can help them out
Just let 'em know, I'll get 'em started up
