

Iro-bot

Coheed and Cambria

In our days we've mourned insignias
The passing glance unstamped
We've rendered ourselves powerless, unfortunate
The useless mend the fixed And on every hour it detonates
My courage goes un-looked
The ride home through perilous
The land it goes, I will You've been a bad boy
You broke all the rules
You've been a bad boy
You'll get yours paid in full IRO-Bot will never die
My Robot will never die
You look down but far from out
And the paper reads, "You lose"
IRO-Bot will never kill A favor captain, a word with you
My systems gone and lost it's mind
My right eye has done shed a tear
My gun I've left behind Will systems take me home and dissemble me?
Will I be terminated with you near
Alongside the others that I hold so close?
If I'm to be killed, then when? By whom? You've been a bad boy
You broke all the rules
You've been a bad boy
You'll get yours paid in full IRO-Bot will never die
My Robot will never die
You look down but far from out
And the paper reads, "You lose"
IRO-Bot will never die
