

Would You Believe?

Roxy Music

Would you believe in what I do
When the things that I make are all for you?
And in a while I'll come to you
Showing, showing why what I think will all come true Well, I'm sure I'll love you all my life
And in the morning too
Everything you have is out of sight
But baby, I can see through you And in a while I'll come to you
Showing, showing why what I think will all come true
Would, would you believe in what I do
When the things that I make are all for you?
