

# Jan's Song

[Mark Searcy](#)

There's Jan calling from the rooftops  
She says, she wants the world to hear  
Her peoples needs their basic rightsShe shouts, I'll make you understand  
What it is we're striving for?  
A better deal across this landShe puts her hat on  
Looks in the mirror  
Says to herself  
You've nothing to fearHer friends, won't argue  
Her friends, don't care  
Now is the moment  
To get out of hereJan's friends, they're marching in the streets  
The anger in their hearts provides a steady beat  
On and on, and on, and onThere's Jan calling from the rooftops  
She says, she wants the world to hear  
Her peoples needs their basic rightsShe puts her hat on  
Looks in the mirror  
Says to herself  
You've nothing to fearHer friends, won't argue  
Her friends, don't care  
Now, is the moment  
To get out of hereGenerosity  
Noble words to be  
Our democracy  
Noble words to me
