Reel

[Jawbox](#)

Listen -
There is no use in trying to explain
Listen -
Is it your fault she made those cuts again?
To let out blood she thought it made her bad
Or maybe just to cut you out instead
Keep your head(Chorus)Cauterize
Wounds you hide
Burn them clean
Show no way insideListen -
The sound is down now you should hear yourself
Shouting from the bottom of a well
Attempts repeated infinitely feel useless nowCauterize
Wounds you hide
Burn them clean
Show no way insideReel on a repeating loop
Reel on a repeating loop
Listen, listen, listen, listenCauterize
Wounds you hide
Burn them clean
Show no way insideCauterize
Wounds you hide
Burn them clean
Show no way inside
