

# I Didn't Mean It

[Aurea](#)

You say the words I wanna hear  
But they are as empty as the air  
Just like you mean it  
But you didn't mean it  
At all  
As I go walking through this night  
Telling myself I will survive  
I wish I could mean it  
But I didn't mean it  
At all  
We can tell so far how endless seems  
And you can be someone that you can be  
It's a gentle lie  
But it will leave me crying through the night  
But that's how it is, sometimes  
But that's how it is, sometimes  
Didn't think love should be like this  
You wouldn't let go no word this is  
You wanted to mean it, but you didn't mean it  
At all  
We can tell so far how endless is  
And you can be someone that you can be  
It's a gentle lie  
But it will leave me crying through the night  
But that's how it is, sometimes  
But that's how it is, sometimes  
(Back ground vocals)  
You wanted to mean it, but you didn't mean it  
At all
