

Stick Around

[Rachael Yamagata](#)

Baby, you've caught my eye, I think I might need you to stay awhile
For I haven't seen a smile
Quite as lovely as yours for awhile
Stick around, I'll be good to you

Baby, I think you know
When I get my arms around you, boy, I won't let go
When you find a spark to awaken your precious heart
You stick around and you'll see it through

I've been in trouble before with my pressured ember
I'm willing to take that chance again
And if we get caught in some crazy wind
We can just get swept away, what do you say?

Baby, make up your mind, 'cause you know I don't wanna waste time
We don't have a lot to lose, boy, decide to choose
Stick around, I'll be good to you
Yeah, stick around, I'll be good to you
