Good Love

TLC

Every time I get to see you
I get this feelin'
It's so fuzzy inside
And as soon as I walk away from you
I'm still tasting your kiss
Saving it in my mindIt's not everyday I find
A guy that makes me smile all the time
Not the way that you do
The guys I thought I used to love
Compared to you they don't match up
They got nothing on youI think I found a good, good, good love
The kind that worded on you
The kind that you wanna hold on to
I think I found a good, good, good love
We can be lovers and friends too
And they'll do anything for you
A good loveBaby you got somethin' special
That has me thinkin'
Of settling down
You're the one my Mama told me
Would sooner or later one day
Finally come aroundI think I found a good, good, good love
The kind that will put it on you
The kind that you wanna hold onto
I think I found a good, good, good love
We can be lovers and friends too
And they'll do anything for you
Good loveI think I found a good, good, good love
The kind that will put it on you
The kind that you wanna hold onto
I think I found a good, good, good love
We can be lovers and friends too
And they'll do anything for you
Good loveYou bring me joy and you bring me much pleasure
I could never see myself leaving you ever
Your soft touch is good and it can't get no better
You have got my mind so caught up
I'm drunk off of your good love, oh yeahThe kind that will put it on you
The kind that you wanna hold onto

I think I found a good, good, good love
We can be lovers and friends too
And they'll do anything for you
A good loveI think I found a good, good, good love
The kind that will put it on you
The kind that you wanna hold onto
I think I found a good, good, good love
We can be lovers and friends too
And they'll do anything for you
Good loveGood, good, good love
On you
The kind that you wanna hold onto
I think I found a good, good, good love
We can be lovers and friends too
And they'll do anything for you
Good loveI think I found a good, good, good love
The kind that will put it on you
The kind that you wanna hold onto
I think I found a good, good, good love
We can be lovers and friends too
And they'll do anything for you
Good loveI think I found a good, good, good love
The kind that will put it on you
The kind that you wanna hold onto
I think I found a good, good, good love
