

You're My Girl (i Don't Want To Discuss It)

[Rod Stewart](#)

See your bag's packed and you're ready to go
There's just one thing
I think that you all ought to know
You're my girl, you're my girl
I don't want to discuss it woman ain't no need to try
I don't want to discuss it baby come on baby try
You're my girl, listen baby
You're my girl
I don't wanna talk about it
I don't wanna hear you say
I don't want to even discuss it woman
I don't wanna hear what you say 'cause you know that

You're my girl, you're my girl, you're my girl, you're my girl, no no
I know that you've been running 'round with another man in town
Tried to put you right woman but you keep on putting me down
Listen to me now

You're my girl, you're my girl, you're my girl get in there
I don't wanna talk about it woman 'cause I know you got another man
I don't wanna say another word just get back where you're at
You got to tell me 'cause you're my girl, come on baby
You're my girl, you're my girl, oh oh
You're my girl, you're my girl, you're my girl
