Move On Me

Fantasia

Move on me, baby, come and get this love
Say you need it and you want it, gotta have it, baby
I been thinking lately, waited long enough
Say you need it and you want it, gotta have it, baby
Baby, baby, babyAin't you tired waiting? Three, four months we been dating
I just want your love, I just want it
How about a little fun? Let's enjoy recreation
Wanna feel your touch, wanna feel itI been trying to play it cool, now it's time to lose my guard
Baby, give it up, baby, do it
So tonight there's no more rules
Have me anyway you want, baby, babyMove on me, baby, come and get this love
Say you need it and you want it, gotta have it, baby
I been thinking lately, waited long enough
Say you need it and you want it, gotta have it, baby
Baby, baby, babyBeen anticipating, ain't no sense in delaying
Come in where it's warm, baby, come in
Throw in a sultry song, it's a special occasion
Play it all night long, baby, play itI'm of age, you're full grown
Feels just right, it can't be wrong
Baby, making love, baby-making
Lay in bed, looking fine, got me wanting you some more, baby, babyMove on me, baby, come and get this love
Say you need it and you want it, gotta have it, baby
I been thinking lately, waited long enough
Say you need it and you want it, gotta have it, baby
Baby, baby, babySee the clock on the wall?
'Bout time you give me a call
'Cause I know what you're needing
What you're needing, I'm givingCome, get my love, I swear it's yours
Boy, you can have it all, not like love had before
It's what you need and more
Love, what you waiting for?Move on me, baby, come and get this love
Say you need it and you want it, gotta have it, baby
Move on me, baby, waited long enough
Say you need it and you want it, gotta have it, gotta have it
Baby, baby, baby, baby, baby, baby, baby, baby, whoa, yeah
