

Never Fade

Josh Devine & Ollie Green

Here again, swimmin in this memories' of you my friend

 All the things you said to me

 Replayed round my head these nights

 Don't leave me now

 Cause you grew wings too soon

 Can you hear me?

 I'm tired of sayin I'll see you soon

 How I wish it could be true

 Cause every single night

 You're always on my mind

 Show me where you hide

 Just give me a sign

It's me again, lost inside this memory

 It never ends

 Still wandering why you left this world

 Far behind it breaks my heart

I'll never know why you grew your wings too soon

 Can you hear me?

 I'm tired of saying I'll see you soon

 How I wish it could be true

 Every single time

 You're always on my mind

 Show me where you hide

 Shinin in the sky

 Never fade ...

 Never fade ...

 Never fade ...

 Never fade ...

I'm tired of saying I'll see you soon

 How I wish it could be true

 Every single time

 You're always in my mind

 I miss you by my side

I guess I'll say goodbye ...
