Alotta Me

Lauren Sanderson

Alotta me just really don't believe you
Alotta me just really thinks you going through the motions
Alotta me just doesn't wanna see you
Alotta me just thinks you missin notion

Alotta me just really don't believe you
Alotta me just really thinks you going through the motions
Alotta me just doesn't wanna see you
Alotta me just don't know where you goin

Cause your ego too big
your pride is too tall
you promise too strong
you wanna know what i think whoa
do you wanna know what i think whoa
I think you lie to yourself like you lie to me
saying this shit don't apply to me
playing like you didn't do me wrong
didn't do me wrong
you wanna know what i think whoa
do you wanna know what i think whoa
think you got me fucked up
cause i thought this was trust
think you got me fucked up
and i thought this was trust

Alotta me just really don't believe you
Alotta me just really thinks you going through the motions
Alotta me just doesn't want to see you
Alotta me just thinks you missin notion

Alotta me just really don't believe you
Alotta me just really thinks you going through the motions
Alotta me just doesn't want to see you
Alotta me just don't know where you goin

and if i'm being honest
you made me a promise
wonder where your mind went
feel like you lost it

feel like you left it at home
feel like you left me alone
this isn't shade now
making my way now
don't you worry
feeling the way
feeling like dori
making my way to the promise land
just like i always planned
it's funny how you let me down
funny how you asked a second round
you wanna know what i think whoa
do you wanna know what i think whoa
think you got me fucked up
cause i thought this was trust
think you got me fucked up
and i thought this was trust

Alotta me just really don't believe you
Alotta me just really thinks you going through the motions
Alotta just doesn't wanna see you
Alotta me just don't know where you going
