If You Ever Saw Her

Ricky Martin

Hey, you know what boy?
That girl is amazing
But she will drive you crazy
Look out
Ha ha haShe's got a look in her eye
That says she knows why just to taste her is never enough
She gets a thrill out of lovin' and watchin' you sufferin'
She says you can look but don't touchSo don't go foolin' yourself
Like so many others, who've fallen for only a smile
But if you're in for the ride, hold on tight
Adios and kiss your heart goodbyeOh and if you ever saw her
Well she's every dream girl from Monroe to Madonna
You'll swear she walks on water, she's so fine
Oh and if you ever kissed her
Well I tell you my friend you could never resist her
And if you ever saw her, you'd know whyShe holds your heart in her hand
She'll make you a man
But she'll play you however she wants
Just when you think that you're winnin'
Your head starts a spinning
You open your eyes and she's goneSo don't believe you're the one
Don't think that this dream is forever, it's only a game
But if you're in for the ride, hold on tight
Adios and kiss your heart goodbyeOh and if you ever saw her
Well she's every dream girl from Monroe to Madonna
You'll swear she walks on water, she's so fine
Oh and if you ever kissed her
Well I tell you my friend you could never resist her
And if you ever saw her, you'd know whyYou know why, you know why
She's an atom bomb and she's waiting
To blow you away, away
You better run for cover and pray
Adios and kiss your heart goodbyeOh and if you ever saw her
Well she's every dream girl from Monroe to Madonna
You'll swear she walks on water, she's so fine
Oh and if you ever kissed her
Well I tell you my friend you could never resist her
And if you ever saw her, you'd know whyOh and if you ever saw her
(Ooh and if you ever saw her yeah yeah)

(She's every dream girl)
You'll swear she walks on water
(Mi chica bonita)
Fine
(Ha you know why, you know why)
Oh and if you ever kissed her
(And if you if you ever kissed that girl)
(Well you'd never resist her)
And if you ever saw her
(Hey you'd know why)
