Sweetness

Toadies

Peel away your skin, just a little more
You can let me in, just a little more
Can you taste it? I do
When you bite down on the truthWe can peel away just a little more
I'll cut you right down to your sweetnessRight to your sweetnessWell, I know it hurts real bad to lay it open
I've tried so hard myself to make you love it
Well, my love, my pride
I swallow you tonightWe can peel away, just a little more
I'll cut you right down to your sweetnessRight to your sweetnessPeel away, peel awayCut right down to the soul, to the center of you
I found me a home for the sinner in me
Cut down to the soul, to the center of you
I found me a home for the sinner in meCut down
Cut downThe sinner in me
The sinner in me
The sinner in me
The sinner in meI'll eat you slow, my sweetness
You give control, my sweetness
I drink you down, my sweetness
I think I found, my sweetnessMy sweetness
My sweetness
My sweetnessCut right down to the soul, to the center of you
I found me a home for the sinner in me
Cut down to the soul, to the center of you
I found me a home for the sinner in meCut downCut right down to the soul, to the center of you
I found me a home for the sinner in me
Cut down to the soul, to the center of you
I found me a home for the sinner in meCut down
Cut down
The sinner in me
Cut down
Cut down
The sinner in me
