

Sweetness

Toadies

Peel away your skin, just a little more

You can let me in, just a little more

Can you taste it? I do

When you bite down on the truth We can peel away just a little more

I'll cut you right down to your sweetness Right to your sweetness Well, I know it hurts real bad to lay it open

I've tried so hard myself to make you love it

Well, my love, my pride

I swallow you tonight We can peel away, just a little more

I'll cut you right down to your sweetness Right to your sweetness Peel away, peel away Cut right down to the
soul, to the center of you

I found me a home for the sinner in me

Cut down to the soul, to the center of you

I found me a home for the sinner in me Cut down

Cut down The sinner in me

The sinner in me

The sinner in me

The sinner in me I'll eat you slow, my sweetness

You give control, my sweetness

I drink you down, my sweetness

I think I found, my sweetness My sweetness

My sweetness

My sweetness Cut right down to the soul, to the center of you

I found me a home for the sinner in me

Cut down to the soul, to the center of you

I found me a home for the sinner in me Cut down Cut right down to the soul, to the center of you

I found me a home for the sinner in me

Cut down to the soul, to the center of you

I found me a home for the sinner in me Cut down

Cut down

The sinner in me

Cut down

Cut down

The sinner in me
