Spectrum

Dover

Baby I'm your sister, I'm your mother
I am an angel, I know the truth
hey! did you hear it? When they did scream.
Baby I'm your brother, I'm your father
I am an angel, I know the truth
did you hear it? When they did scream.
Moon and the stars dry night
did you hide the sun
so sorry sad sister
I just wanna sleep the rest of my life.
I am spectrum centuries off
and I forgot how to talk
I know something that nobody knows.
