No Use

Sub Alert

Doctor says it's all fine, vertigo is all fine
When you're sitting on top of your childhood dreams
'Cause who wouldn't be scared at the top of the stair
Who wouldn't stare before they dareBut there's no use 'cause I can't find you
But there's no use 'cause I can't find you
But there's no use at allDoctor says it's all right, feeling shit when it's all light
When luck hits you like a truck, I keep on walking in the street with luck
And climb over your arms and step onto your charms
And tread over the dreams I had one night.But there's no use 'cause I can't find you
But there's no use 'cause I can't find you
But there's no use at all'Cause who wouldn't be scared at the top of the stair
Who wouldn't stare before they dareBut there's no use 'cause I can't find you
But there's no use 'cause I can't find you
But there's no use at all
No use at all
