# One Step From Paradise

## Danger Danger

We live like strangers, playing for time
Both of us reaching out for something
Hiding our feelings, afraid what we'll find
Someday I know we'll find the answerIt takes a little time
It doesn't really matter
Don't throw it all away
'Cause we'reOne step from paradise
So close, but still so far away
One step from paradise
Together, we'll find paradise some dayLost in the shadows
We search for a light
Hoping the candle
Burns foreverIt takes a little time
It doesn't really matter
Don't let it slip away
'Cause we'reOne step from paradise
So close, but still so far away
One step from paradise
Together, we'll find paradise some dayIt takes a little time
It doesn't really matter
Don't let it slip away
'Cause we'reOne step from paradise
So close, but still so far away
One step from paradise
Together, we'll find paradise some dayOne step from paradise
So close, but still so far away
One step from paradise
Together, we'll find paradise some dayOne step from paradise
Some day
Some day
One step from paradise
