

# One Step From Paradise

## Danger Danger

We live like strangers, playing for time  
Both of us reaching out for something  
Hiding our feelings, afraid what we'll find  
Someday I know we'll find the answerIt takes a little time  
It doesn't really matter  
Don't throw it all away  
'Cause we'reOne step from paradise  
So close, but still so far away  
One step from paradise  
Together, we'll find paradise some dayLost in the shadows  
We search for a light  
Hoping the candle  
Burns foreverIt takes a little time  
It doesn't really matter  
Don't let it slip away  
'Cause we'reOne step from paradise  
So close, but still so far away  
One step from paradise  
Together, we'll find paradise some dayIt takes a little time  
It doesn't really matter  
Don't let it slip away  
'Cause we'reOne step from paradise  
So close, but still so far away  
One step from paradise  
Together, we'll find paradise some dayOne step from paradise  
So close, but still so far away  
One step from paradise  
Together, we'll find paradise some dayOne step from paradise  
Some day  
Some day  
One step from paradise
