

# Voice Of The Soul

## Dokken

Can you see the soul / through a window in your mind  
Can you see the darkness that was left me over time  
Bordering on sadness / no tranquility  
Look through my mirror and you'll see  
[so long] a vision come and gone  
[inside] nothing was clear  
Saving grace / forgotten road  
I was lost / but now I'm home  
Saving grace / a ray of hope  
When I hear a voice of the soul  
Sold my religion / sold my candles too  
Knees have been bleeding / praying over you  
I search the heavens / all I ever see  
Dust from the ashes / misery  
[rise up] sleeping with misfortune  
[temptation] a mirror of myself  
Saving grace / forgotten road  
I was lost / but now I'm home  
Saving grace / a ray of hope  
When I hear a voice of the soul  
When the light shines above me  
And casts a shadow of myself  
Look to skies that surround me  
Embrace the one that speaks inside  
Delivered unto self  
Saving grace a ray of hope  
When I hear the voice [of the soul]  
[voice of the soul]  
Saving grace  
[voice of the soul]  
When I hear the voice  
Hear the voice of the soul
