Miracle

Hurts

Talk to me girl, tell me your lies
Let your secrets hypnotize
'Cause the light will never shine
On this heart of mine

And all the love we sacrificedLook at all of the damage you have done in time
You can see what a savage I've become, in my eyes
If you look in my heart you will findNo love, no light, no end in sight

And I'm looking for a miracle And I'm looking for a micrale But I hope and pray and I will fight Cause I'm looking for a miracle

Cause I'm looking for a miracleThere's a place I wanna go

And a life I wanna know

But you crucified my heart of gold

Oh, ohBut oh, look at all of the damage you have done in time If you offer salvation I will run into your arms

And deep in my heart you will findNo love, no light, no end in sight

And I'm looking for a miracle

And I'm looking for a micrale

But I hope and pray and I will fight

cause I'm looking for a miracle

cause I'm looking for a miracleMiracle

And I'm looking for a miracleThere's no love, no light, no end in sight

And I'm looking for a miracle

And I'm looking for a micrale

But I hope and pray and I will fight

Cause I'm looking for a miracle

Cause I'm looking for a miracle
