Solitude

Candlemass

I'm sitting here alone in darkness Waiting to be free Lonely and forlorn I am cryingI long for my time to come Death means just life Please let me die in solitudeHate is my only friend Pain is my father Torment is delight to meDeath is my sanctuary I seek it with pleasure Please let me die in solitudeReceive my sacrifice My lifeblood is exhausted No one gave love and understandingHear these words Vilifiers and pretenders Please let me die in solitude, yeahEarth to earth Ashes to ashes And dust to dustEarth to earth Ashes to ashes And dust to dustSitting here alone in darkness Waiting to be free Lonely and forlorn I am cryingI long for my time to come Death means just life

Please let me die in solitude, yeahEarth to earth

Ashes to ashes

And dust to dustEarth to earth

Ashes to ashes

And dust to dustEarth to earth

Ashes to ashes

And dust to dustEarth to earth

Ashes to ashes

And dust to dust

And please let me die in solitude
