

Runaway (triggamix)

Trey Songz

Runaway Triggamix by Trey Songz Lyrics

O ho, for a longest time, I've been on my shine, I'm Songz

Now i'll never let up. I've been wanting this way so long,

Got me sitting so high, trying to balance out the lows

And I think it's time that I propose

Let's make a toast to the dickheads that boast cause we get bread

Toast to the bad bitches that shit on their ass bitches

Everybody think they're Jordan so toast to the Pippens

Nobody's the same but we're no different

We all want this money right,

Everybody tryna eat like it's money pie

I should live 100 lives I should have 100 wives

And a hundred beds, I should tell her 100 lies

Then I wonder why, when it's all said and done

Tell me what will I become,

I wanna say that I did learn some earn some,

Bad memories I did burn some

Sanitize my hands and let the germs gone

See you niggers is disgusting

Bad bitches worldwide wanna fuck em

You see they treat my dick like lip balm

They know I hate hard, no concussion, come on

O ho, for a longest time, I've been on my shine, I'm Songz

Now i'll never let up. I've been wanting this way too long,

Got me sitting too high, trying to balance out the lows

And I think it's time that I propose a toast

Let's make a toast to the good times

Let's have a toast for the cash flow

Make a toast to a new band on the arm of a a bad hoe

Make a toast to a bad day so we appreciate the sun rays

You still don't understand , stay away as far as you could

Stay away, stay away, stay away as far as you could X 3

Still don't understand

Stay away as far as you can

This girl I barely even know scream loud for me

George probably go gettin the Lou for me

See I'm living life with no boundaries

But even a sunny day got clouds you see

I'm floating in the air, I live there

Laid back chair, call me Songz Air
I got a big beach, you got a beach chair
I'm the picture and you're just a small square

But who am I to say I'm better man
I just want this shit forever man
Momma said there will be better days
But when better days came

I knew there were better things
Ahead of me, you telling me this everything
Nahh quit playing man where's everything ?

The women are amazing, the liquors always tasteful, the parties off the chain
But emptiness remains, tell me where's the love that I'm missing?
From every day kitchen, or a girl that's really down cause I know she's been around

I feel like something wrong, but everything's right

Hand quotes in the air read left right

I ain't trying to bitch, I'm living the blessed life

Would I trade it in motherfucker? Yeah, right

Whack niggas can't hear me nor see me

This is the graveyard, death sight

O ho, for a longest time, I've been on my shine, I'm Songz

Now i'll never let up. I've been wanting this way so long,

Got me sitting too high, trying to balance out the lows

And I think it's time that I propose a toast

Let's have a toast for the cash flow

Make a toast to a new band

on the arm of a bad hoe

Make a toast to a bad day

So we appreciate the sun rays

You still don't understand , stay away as far as you could

Stay away, stay away, stay away as far as you could X 3

Still don't understand

Stay away as far as you can X5

If I could stand on a cloud and speak out loud to the world below me

To play my name just so that they know me, you see the neighbors know my name

Even the haters love my fame, everybody plays my game

We've got mental hypocrisy at such high velocities

When I speak truth, everybody calls me Socrates

I've got such a philosophy that everybody's watching me

Looking at their rich shit, everybody's clocking me

When all there's no thrill like a slow kill

Standing at the bottom looking at the top

Hoping that they stop blocking me

If I had a day job niggas probably stayed back in me

See I hate fools, if you said I obey, you ain't ever know Trey

You ain't know I'm season like Olbay
Do re mi sol fa la si do, toss it to the assholes, exclude me through
Please, don't involve me in that, see I'm a dignified man with a signified plan
And all problems to solve just leave them into His hands.
