

Champagne High

Sister Hazel

One two three I wasn't looking for a lifetime with you
I never thought it would hurt just to hear
I do and I do
And I do a number on myself
And all I thought
To be and you'll be the one
That just left me undone
By my own, hesitation And for the million hours that we were
Well I'll smile and remember it all
Then I'll turn and go
While story's completed mine is a long way from done Well I'm on a champagne high
Where will I be when I stop wondering why
On a champagne high
I'd toast to the future but that'd be a lie
On a champagne high, high Spring turned to summer
But then winter turned to mean
The distance seemed right
At the time it was best
To leave, and to leave behind
What I once thought was fine and so real
To me, and while I'm still gone
On the quest for my song
I'm at your, celebration And for the million hours that we were
Well I'll smile and remember it all
Then I'll turn and go
While story's completed mine is a long way from done I'm on a champagne high
Where will I be when I stop wondering why
On a champagne high
I'd toast to the future but that'd be a lie
On a champagne high, high Wagons been hitched to a star
Well now he'll be your thing that's new
Yeah what little I have you can borrow
'Cause I'm old and I'm blue For the million hours that we were
Well I'll smile and remember it all
Then I'll turn and go Well I'm on a champagne high
Where will I be when I stop wondering why
On a champagne high
Toast to the future but that'd be a lie
On a champagne high

Where will I be when I stop wondering why
On a champagne high, high
So high, so high
So high, so high
