Champagne High

Sister Hazel

One two threeI wasn't looking for a lifetime with you I never thought it would hurt just to hear

I do and I do

And I do a number on myself

And all I thought

To be and you'll be the one

That just left me undone

By my own, hesitationAnd for the million hours that we were

Well I'll smile and remember it all

Then I'll turn and go

While story's completed mine is a long way from doneWell I'm on a champagne high Where will I be when I stop wondering why

On a champagne high

I'd toast to the future but that'd be a lie

On a champagne high, highSpring turned to summer

But then winter turned to mean

The distance seemed right

At the time it was best

To leave, and to leave behind

What I once thought was fine and so real

To me, and while I'm still gone

On the quest for my song

I'm at your, celebrationAnd for the million hours that we were

Well I'll smile and remember it all

Then I'll turn and go

While story's completed mine is a long way from doneI'm on a champagne high

Where will I be when I stop wondering why

On a champagne high

I'd toast to the future but that'd be a lie

On a champagne high, highWagons been hitched to a star

Well now he'll be your thing that's new

Yeah what little I have you can borrow

'Cause I'm old and I'm blueFor the million hours that we were

Well I'll smile and remember it all

Then I'll turn and goWell I'm on a champagne high

Where will I be when I stop wondering why

On a champagne high

Toast to the future but that'd be a lie

On a champagne high

Where will I be when I stop wondering why
On a champagne high, high
So high, so high
So high, so high
