Soulchaser

Primal Fear

I'm fighting through stages
And it burns me alive
A truth you will never believe
But no modern messiah will ariseBurning the place - set to burst
Coming from the pain
Thunder crash from far beyond
No one will remainHear me out of the dark
Come to break the spell
Come with me to the other side
Hear the final bellChorus:
Soulchaser
I'm watching over you
Soulchaser
You will see the truthOur strike against heaven
Our war against hell
You'll wake up laughing
And I will show you the wayProtecting the dark
The underworld waits
And you're a soul in need
I'll take your pain
Come follow me
Or you will ever bleedDon't be afraid of the dark
Please don't turn away
Come with me into my heart
Follow me, just prayChorus
