

# Every Thought Is You

Kelly Rowland

I love it, how we chill all of our conversation  
I'm dealin' with this feelin' of infatuation  
Pacin', don't wanna force the situation  
Waitin' for you to make a move, no hesitation I'm thinkin' maybe this can turn into somethin' more  
I'm feelin' you, boy, you got me open for sure  
I'm hopin' that the feelin's are mutual  
Tryna hold off 'cause I want you to know I'm addicted to you  
When I see you, wanna be with you  
Everything you do, all I dream of  
When I wake up, my every thought is you I'm addicted to you  
When I see you, wanna be with you  
Everything you do, I can't fight it  
'Cause I like it, my every thought is you Now it's been a year and we're still together  
Never gettin' old, this only gettin' better  
I treasure the love we share between us, it's a pleasure  
If we have our differences, we'll make it work whatever 'Cause of you I'll never feel alone  
'Cause of you my house is now a home again  
You're my inner peace, fill my mind with ease  
You're everything I want my man to be I'm addicted to you  
When I see you, wanna be with you  
Everything you do, all I dream of  
When I wake up my every thought is you I'm addicted to you  
When I see you, wanna be with you  
Everything you do, I can't fight it  
'Cause I like it, my every thought is you My every thought is you, I'm thinkin' about you  
My every thought is you, my every thought is you  
My every thought is you, I'm thinkin' about you  
My every thought is you, my every thought is you I'm addicted to you when I see you  
Wanna be with you, everything you do  
All I dream of when I wake up  
My every thought is you I'm addicted to you  
When I see you, wanna be with you  
Everything you do, I can't fight it  
'Cause I like it, my every thought is you I'm addicted to you  
I wanna be with you  
Dream of when I wake up  
My every thought is you I'm addicted to you  
When I see you, wanna be with you  
Everything you do, I can't fight it

'Cause I like it, my every thought is you  
My every thought is you  
I'm thinkin' about you  
My every thought is you  
My every thought is you  
My every thought is you  
I'm thinkin' about you  
My every thought is  
My every thought is you
