

Ambush

Sepultura

Screaming
For more justice
Amazonia burns
Can you hear them? I'll fight
To save another day
So join us
And we'll make them leave this land Threatening
To kill how we feel
We stop them
It'll be worth dying for When you go down
When you go down, motherfucker
When you go down
You go down fighting When you go down
When you go down, motherfucker
When you go down
You go down fighting, motherfucker When you go down
When you go down, motherfucker
When you go down
You go down fighting When you go down
When you go down, motherfucker
When you go down
You go down fighting, [Incomprehensible] Why?
Why?
Why?
