## **Ambush**

## **Sepultura**

Screaming
For more justice
Amazonia burns
Can you hear them?I'll fight
To save another day
So join us
And we'll make them leave this landThreatening
To kill how we feel
We stop them
It'll be worth dying forWhen you go down
When you go down, motherfucker
When you go down
You go down fightingWhen you go down
When you go down, motherfucker

When you go down
You go down fighting, motherfuckerWhen you go down
When you go down, motherfucker

When you go down

You go down fightingWhen you go down When you go down, motherfucker

When you go down

You go down fighting, [Incomprehensible] Why?

Why?

Why?
