

Right Here

James Morrison

I don't know what you're looking for
Maybe a boat or a train or a way out
I see you running from the flood
Faster you run the harder you hit the ground
Don't you know we are all made of dust
Sometimes you're bound to get
blown around with the wind
Cause you are stronger when you break
And you have to mend
Don't give me a reason
I ain't going nowhere
You need to fight your feeling
Cause everyone get a little bit scared
But i'm right here
Still right here
I don't know if i can heal the hurt
Give you all i've got for all that it's worth
Cause a little something
Is better than nothing
I'll hold you, you can fall on me
I told you that you're where i want to be
I'm right here
We'll be together
I'm right here
Feel like forever
I'm right here
We'll be together
I'm right here
Feel like forever
Don't know where you want to be
But i'll be there ready for whenever you decide
You might think i'm not what you need
But how are you going to know until you try
We could be the king and queen
Of a place where only our dreams are made
Come on baby take my hand
And let's ride until our demons fade away
Don't give me a reason
I ain't going nowhere

Need to fight the feeling
Cause everyone get a little bit scared
But i'm right here
Still right here
I don't know if i can heal the hurt
Give you all i've got for all that it's worth
Cause a little something, is better then nothing
I'll hold you, you can fall on me
I told you that you're where i want to be
Yeah I'm right here
We'll be together
I'm right here
Feel like forever
I'm right here
We'll be together
I'm right here
Feel like forever
I'll be your space when there is not enough
When it gets too much, i will be right there
I'll carry you when you've given up
When you're out of love, there is nothing to fear
I'm right here
Still right here
I don't know if i can heal the hurt
Give you all i've got for all that it's worth
Cause a little something, is better than nothing
I'll hold you, you can fall on me
I told you that you're where i want to be
Yeah i'm right here
We'll be together
I'm right here
Feel like forever
I'm right here
We'll be together
I'm right here
Feel like forever
I'll be right here
We'll be together
Let's make right now
Feel like forever
