

A Is For Apathy

Powerman 5000

La la la la

La la la la la

La la la la

La la la la la

La la la la

La la la la la

I wanna be the richest American

I wanna live out on the street

So many reasons to just do nothin'

To walk around like you're out on your feet

So here we are now runnin' in circles

We should have listened to H.G. Wells

We're livin' in the age of frustration

We're givin' in but we can't even tell

And all you need is one good reason

One good reason you don't believe

You want a mapped out blank existence

So you don't feel stupid before you leave

Everybody's here but nobody showed up

A is for apathy

For apathy

For apathy

A is for apathy

For apathy

For apathy

For apathy

For apathy

For apathy

For apathy

For apathy

For apathy

I wanna be the richest American

I wanna live out on the street

So many reasons to just do nothin'

To walk around like you're out on your feet

Everybody's here but nobody showed up

Everybody's here but nobody showed up

A is for apathy

For apathy
For apathy
A is for apathy
For apathy
For apathy
Just do nothin'
A is for apathy
For apathy
For apathy
A is for apathy
For apathy
For apathy
A is for apathy
For apathy
For apathy
A is for apathy
For apathy
For apathy

Green says go, blood red stop
You gotta hit the bottom before you hit the top
So make the call which side you're on
Back with the weak, go down with the strong
