Twilight Time

Stratovarius

Danger zone
I look into the mirror
See my face againI hear myself preaching
You are getting bold
Growing old, skin turns coldYou're to blame
But I will find the way to be
Myself againI break the mirror with a noise
Stop preaching me
Teaching me, live in meThere's no way to stop me now
My end is in sight
I reach for the light
Tonight, tonight, tonightTwilight time
It's twilight time
Reaching for a morning light
It's twilight timeTwilight time
It's twilight time
Reaching for a morning light
Twilight timeIt's twilight time
It's twilight time
Reaching for a morning light
It's twilight timeIt's twilight time
It's twilight time
Reaching for a morning lightTwilight time
