Higher Than the Sky

Nightingale

So, now my time has come
I will be dead and gone from the earth's face
It is my destiny
This time I cannot fear from this cruel fateA never ending memory
A life before my eyes
Whatever comes, whatever's been
My pocket full of liesLike an arrow in the air
Falling endlessly and I know we're gonna beHigher than the sky, we're
Higher than the sky, sky, sky
Higher than the sky, we're
Higher than the sky, sky, sky
Higher than the skyAn ordinary flight
Who could imagine this will be our death cell
No miracle in sight
We're diving faster now as for as I can tellI see the faces passing by
There's fear inside their eyes
They all will be my company
We're brothers now for lifeLike an arrow in the air
Falling endlessly and I know we're gonna beHigher than the sky, we're
Higher than the sky, sky, sky
Higher than the sky, we're
Higher than the sky, sky, sky
Higher than the skyHigher than the sky
Higher than the skyLike an arrow in the air
Falling endlessly and I know we're gonna beHigher than the sky, we're
Higher than the sky, sky, sky
Higher than the sky, we're
Higher than the sky, sky, sky
Higher than the skyHigher than the sky
Higher than the sky
