

# Demonic Refusal

## Testament

You take my hand and sympathize  
You felt the flesh you realized  
You took my will now I'm deprived  
Save myself just save myself I cannot be taken unto  
All that I have cannot be taken She has ways mischievous  
Takes your soul in pact  
Demonic chants of manatu  
Save your soul just save your soul I cannot be taken unto  
All that I have cannot be taken A strong will is my defence  
For my future and past I feel what I feel  
I seen what I've seen  
I have what I have  
All I have is from me Yeah he feeds on innocence  
Dreams the taste of war  
Smells the fear that he has dreamt  
Wake yourself just wake yourself I cannot be taken unto  
All that I have cannot be taken The tarot cards on the table  
He saw the future and past I feel what I feel  
I seen what I've seen  
I have what I have  
All I have is from me I am a prisoner of fate  
I'm refusing all hate  
I will cast it away  
I will not be a slave You take my hand and sympathize  
You felt the flesh you felt the flesh  
You took my will now I'm deprived  
Save myself just save myself I cannot be taken unto  
All that I have cannot be taken The tarot cards on the table  
He saw the future and past I feel what I feel  
I seen what I've seen  
I have what I have  
All I have is from me  
In through out death I shall be  
In through out death I shall be
