Good Man

RL

You could catch me in the Gentlemen's club
Substitutin' lap dances for love, love, love
Goin' home to an empty house
Thinkin' who should I call for some fun, heyI never knew love until you, love
Never thought that I'd fall in love
Till you brought out of me
The man I always knew I could be, babyI can count the lovers that I've had
All of those relationships gone bad
I wanna thank you for guiding me
And showing me the hopeI was just a boy and not a man
Falling deep in love was not the plan
Baby, because of you and what you do
(You made me a good man, oh baby)Used to change my numbers every other week
Gettin' crazy crank calls from them freaks I'd meet
In V I P with a bottle of somethin'
Tryin' hard to push up or some [Incomprehensible]'Cause I, I never knew love until you, love
(Love, love)
You showed me true love
You gave me the chance
Now I understand how to be a good man, oh yesI can count the lovers that I've had
All of those relationships gone bad
(Relationships)
I wanna thank you for guiding me
And showing me the hope
(Yes)I was just a boy and not a man
(Not a man, no)
Falling deep in love was not the plan
Baby, because of you and what you do
(You, you, you)
You made me a good manThank you for lovin' me
Where's the love that you promised?
Where's the love that I want?
Where's the love that we share?
Where's your love oh yeah?'Cause if it aches you, my love's for nobody, nobody
(Nobody, nobody, nobody, nobody)I can count the lovers that I've had
(Baby, baby)
All of those relationships gone bad
(And I)
I wanna thank you for guiding me

And showing me the hope
(Thank you love)I was just a boy and not a man
Falling deep in love was not the plan
Baby, because of you and what you do
You made me a good man, oh baby
(Made me a good man)It's all because of you, you, you
You, you, you, you, you, you
