

# Where the Monkey Meets the Man

## Primitive Radio Gods

You haven't changed a bit since then

You always think you're so on top of thing

You can't remember where you've been

You can't remember who you're following Where the river meets the ocean

Where the monkey meets the man

I think I can I think I can You'll see your worlds turn inside out

You'll always see the biggest part of me

You'll live and die without a sound

You'll never even miss the scenery Where the river meets the ocean

Where the monkey meets the man

I think I can I think I can Where the river meets the ocean

Where the monkey meets the man

I think I can I think I can Where the river meets the ocean

Where the hammer meets the hand

I think I can I think I can
