Where Will You Go

HydraFX

We started out as simple friends
That kind of friendship never ends, no baby
But we were fortunate to care enough
We knew just where we stood
But soon as love appeared you turned awayAnd you were so unsure and so afraid of feelin' what I was feelin'
You were scared that love would blow your heart away
And you were certain that in time my love would straySo where, where will you go?
And who, who's gonna love you like I do, I do, I do?
Where, where will you go?
And who's gonna love like I do?What kind of friends could we have been
If we had kept the feelings in
When we had made a vow to be the friends
We were since we began
But soon as love appeared you turned awayAnd you were so unsure and so afraid of feelin' what I was feelin'
You were scared that love would blow your heart away
And you were certain that in time my love
You were thinkin' that our love was gonna stray, oh tell meWhere, where will you go?
Just tell me who, who, who, who's gonna love you baby?
The way that I do, now baby
Where, where, where, Where, Where, where will you go?Where will you go and tell me who is gonna love?
I wanna know who is gonna love
I need to know who's gonna love
Who's gonna love, who, who, who, ohWhere, where will you go, baby?
Who's gonna love you baby, tell me?
Who's gonna care for you baby?
Who's gonna be there for you baby?
Who's gonna love you like you need to be loved?Oh where will you go, baby?
And who's gonna love you like I do?
Oh baby, do, do, do, do
Oh I wanna know, I wanna know
I wanna know, I wanna know baby like I do
