

# Sweet Little You

[ELAN](#)

I'm gonna fly in my big blue air balloon and if you smile I'll know  
you like it too. You know you do, you know you do, sweet little you. It's fun to watch them all trying to get  
along, but I'd much rather  
stay up here  
and sing this song. Oh with you, oh with you, sweet little you. Of all the people I've met in my life,  
I love you the most.  
Of all the people I've met in my life,  
I love you the most. Gonna fly in my big blue air balloon and if you smile I'll know you  
like it too. You know you do, you know you do, sweet little you. It's fun to watch them all trying to get along,  
but I'd much rather  
stay up here  
and sing this song. Oh with you, oh with you, sweet little you. Of all the people I've met in my life,  
I love you the most.  
Of all the people I've met in my life,  
I love you the most.
