Tell Me We're Ok (feat. DJ Hardwerk)

[Akon](#)

[Verse 1]
Tell me what you feel, don't tell me it's nothing
It's gotta be something, still want from me
Tell me what you hear, if my words mean nothing
Wish they would say something, something that would heal[Chorus]
But I have my pride and you know it, know it, know it
I show it, show it, show it
And I'm running outta time, I know it, know it, know it
You show it, show it, show it
Just tell me that we're okay
There's nothing left to say, just tell me we're okay
Just tell me that we're okay
If there's something left to say, just tell me we're okay[Verse 2]
Tell me through your tears, that this don't change nothing
And we still mean something cause some things are real
Tell me that you know, that I would be nothing
But we could be something, for all our years
[Chorus]
But I have my pride and you know it, know it, know it
I show it, show it, show it
And I'm running outta time, I know it, know it, know it
You show it, show it, show it
Just tell me that we're okay
There's nothing left to say, just tell me we're okay
Just tell me that we're okay
If there's something left to say, just tell me we're okay
Please tell me that we're okay
If there's something left to say, just tell me we're okay
Tell me that
Tell me that, tell me we're okay
