

Prayer

Secret Garden

Chorus:

Let your arms enfold us
Through the dark of night
Will your angels hold us
'Til we see the light?

Hush, lay down your troubled mind
The day has vanished and left us behind
And the wind whispering soft lullabies
Will soothe, so close your weary eyes

(Chorus)

Sleep, angels will watch over you
And soon beautiful dreams will come true
Can you feel spirits embracing your soul?
So dream while secrets of darkness unfold

(Chorus twice)
