

# Love's Recipe

Calvin Harris

Now, take a girl and a boy  
Strolling through the park  
Come on and pour them together  
What have you got?  
Turn off the moon till it gets hot  
You enter together beautiful weather for Love recipe, baby  
For you and me Ooh ooh ooh ooh  
Ooh ooh ooh ooh Now add a spoonful of sweet sunset  
A cup and a half of happiness  
Two bags full of kisses, ain't nothing missing from Love's recipe, baby  
For you and me Oh grab you an apron, gather around  
We're gonna make some love  
Now set your stove  
For a hundred degrees  
And never let it cool, don't be a fool We're gonna blend in faithfulness  
Something else you've missed  
Girl a bag full of trust  
Baby that's a must for Love recipe  
Baby, for you and me Oh Oh grab you an apron, gather around  
We're gonna make some love  
Now set your stove  
For a hundred degrees baby  
And never let it cool, don't be a fool  
We're gonna blend in faithfulness  
Something else you've missed  
Girl a bag full of trust  
Baby that's a must for Love's recipe baby  
For you and me Oh, uh uh uh uh  
Uhh, uh uh uh uh  
Uh, uh uh uh uh
