

# Wounded Horse

Xtc

Well, I stumbled and I fell  
Like a wounded horse  
When I found out you'd been riding  
Another man  
Well, I staggered round in circles  
On a loser's course  
When I found out you'd been riding  
Another man  
Well, my friends all said  
Just climb back in the saddle  
And you know that everything will turn out right  
Well, my friends all said  
You won't sink if you paddle  
But my ship drifts on into an endless night  
Well, I bit out my own tongue  
Like a wounded horse

When I found out you'd been riding  
Another man  
Well, my friends all said  
Just climb back in the saddle  
And you know that everything will turn out right  
I can [Incomprehensible] story  
Well, my friends all said  
You won't sink if you paddle  
But my ship drifts on into a endless night  
Well, I bit out my own tongue  
Like a wounded horse  
When I found out you'd been riding  
Another man  
When I found out you'd been riding  
Another man
