

Let's Call It Love

Sarantos

Verse 1 Last night I said, you meant the world to me

It felt so good, it was simple yet na~ve

Next thing I knew, (I felt) my heart was racing

I wanted to touch your lips, cuz they really set me free Chorus Please, don't ever leave my arms

This feeling seems so strange

My heart is feeling faint

I think I feel love, let's call it love I think I love you

I think I feel love

Let's call it love

I think I love you Verse 2 Today, you changed the world for me

This feels so right, my mind clearly thinks

It's supposed to be you and me

Tell me what this is & do you feel it too? Solo Piano I think I love you Chorus 2 Please, don't break my heart

This feeling seems so strange

Never felt this before

I think I feel love, let's call it love I think I love you

I think I feel love

Let's call it love

I think I love you Verse 3 Last night you said, I meant the world to you

You felt so good, I was simple yet na~ve

Next thing you knew, (you felt) your heart was racing

You wanted to touch my lips, cuz they really set you free Outro Please, don't break my heart

We already spend too much time apart

I never felt this before

Can't live without you anymore I think you feel love too

I think I feel love

Let's call it love

I think I love you I think I love you

I think I love you
