Diamonds

Steve Appleton

Verse 1:
Well I made my way down to the sea
My mind, my mind was lost
Oh your face in everything I see
So please try to please turn away.Pre-Chorus:
And all my days were shining through her
A diamond she wasChorus:
So goodbye love and your diamond ring
I found the harbor where I etched both our names
From here I said I need it for me
But the hardest thing's to leave
Cause there's diamonds on the sea
Yeah there's diamonds on the seaVerse 2:
Well I wrote this song down at the sea
My mind, I tried to ease
You were tough and your beauty rare
You were a diamond to mePre-Chorus:
And all my days were shining from her
A diamond she wasSo goodbye love and your diamond ring
I found the harbor where I etched both our names
From here I said I need it for me
But the hardest thing's to leave
When there's diamonds on the sea
Yeah the sunlight puts those
Diamonds on the seaLittle lady, little lady
If you're always on my mind don't blame me
Come save me, come save me
I long for that heart you gave me
Little lady little lady
You're everywhere I go, I'm caved in
Come save me come save me
Do I scar from this stone you scathe me
Little lady little lady
If you're always on my mind don't blame me
Come save me come save me
Come lie in this maze you made meOh you were a diamond to me
I don't need no diamonds in the sea
Just know you were a diamond to me
I don't need no diamonds in the sea

Just know you were a diamond to me
No I don't need no diamonds in the sea
