System vs. Solitaire

Rave The Reqviem

True happiness is found
At the end of every fist
It's a fact
If bitches bleed
Bitches learn how to resist

How to suck up to people above you
Climb high on Jericho's walls
How to shit on those beneath you
and undercut your equals

I'm glad to be the enemy
The end of everything you hold dear
The principle of genocide
The inner core of fear

Push me down
Humiliate me
But I'll never hit the ground
Because the hatred inside my veins
Will never let me down

WHAT IS THE WORTH OF GOODBYE
IF I ONCE HAD A CHANCE TO DREAM FOR A WHILE
I'D SET YOUR WORLD ON FIRE AND SMILE AS I WATCH IT GO DOWN

SO WAKE ME UP TONIGHT
CONDEMN ME BACK INTO THE WORLD OF DESPISE
UNTIL THE AFTERLIFE
DRINK THE SALT FROM THE TEARS IN MY EYES

It's a cruel world full of hatred and despair
I've been talkin' about suicide so many times
People no longer care

So do unto others before they do unto you
Shit on their face

As a figure of speach
But why don't you do it for real too
