Falling Into Love

Dana Glover

Hold on my heart
Remember what you've been through
Be still my song
And let yourself be renewed
You've been here before
So tell me what i must do
Don't lose your way
'Cause i'm following after you
And it feels like im falling into lullaby
Can't believe what i feel like
Falling into love
I'm falling into love
Why do I smile when there's no one else around
These butterflies well they can't seem to settle down
Feels like I'm falling into lullaby
Can't believe what I feel like

Falling into love
OO it feels like I'm falling for the first time
I can't believe that its real life
I'm falling into love
O I'm falling in to love
If I am dreaming please let me never awake
La la la la
And it feels like im falling into lullaby
Can't believe what i feel like
I'm falling into love
Ooo It feels like i'm falling for the first time
I can't believe this love is real
I'm falling into love
I'm falling into love yea
Falling into love
Falling in falling in falling in
I'm falling into love
