Let Me Remind You Again

Billy Gilman

If you ever forget to remember
This night and all that is meant
If you ever can't see
What you meant to me
Let me remind you againIf you ever look and can't find me
Your heart will know where I've been
If you memory slips
And you can't feel this kiss
Let me remind you again[Bridge]
We'll always have this moment
It belongs to the two of us
And I only pray
That every day
We'll always remember
The way it wasSo let's make this night last forever
Who says all good things must end
And when we're old and gray
And memories fade
I'll still be loving you then
And I will remind you again
