

# Tin Omen

## Skinny Puppy

every truncheon hit misguided the peoples army divided united stance amped  
out war dance what a ride inner thought of non violent rebellion outside  
dare to die stand and fight show faith return all the weapons  
government says use them right fixed action set in motion doubting amnesia  
potion what to hide red carpet ride guessing right the jokes on  
dark corner the square you bath once a week distorted the viewpoint  
seldom seen wayback in 68 ohio kent state was nothing so great have of  
have not forcing the point shot in the back take it back down trod soldier  
away flower power within kill me kill this way of life and be  
known one by one they'll be coming down altogether sister machine gun  
automatic high what a ride what a trip tripped over the candlestick tanks  
arrive fire wall got to keep the camera alive tell the world  
whats going on here warning shots are fired at the stomach chest wound  
coed falls amped out amped out changing guns for brooms the guards change  
to clean up crews way back in 68 every thing was so great no way wrong  
date keep up the trade balanced charade close circuit truth used to  
remove keep the camera alive
