

# Living in China

## Men Without Hats

They got the red book, they got the new look  
All the little people that are living in China  
They got the answers to all the questions  
All the little people that are living in China  
The solution is revolution  
For all of the little people that are living in China  
They got ping pong egg foo yung  
For all the little people that are living in China  
What would Chairman Mao say, if he knew what they're doing to his wife today  
What did China do? She ordered out for submarines instead of Chinese food  
China fields of rice, modern man no longer evil he's a paradise  
What did the Chairman want?  
A great big wall they could all watch orientals on  
They got the red book, they got the new look  
The little people that are living in China  
They got the answers to all the questions  
The little people that are living in China  
The solution is revolution  
For all the little people that are living in China  
They got ping pong egg foo yung  
All the little people that are living in China  
What would chairman mao say  
If he knew what his people think of him today  
Revolution is out of hand  
The gang of four, trying to make it as a western band  
China, what do you need  
You've got everything from your scruffy head to dirty feet  
China you want to dance  
You're wearing makeup and listening to Adam and the Ants  
They got the new look, They got the red book,  
All the little people that are living in China  
They got the answers to all the questions  
All the little people that are living in China  
The solution is revolution  
For all the little people that are living in China  
They got ping pong egg foo yung  
The little people that are living in China  
The solution is revolution  
They got the answers to all the questions

All the little people that are living in China  
China, living in China  
China, living in China  
China, living in China
