Some Dreams Come True

SW/MM/NG

I've seen the shadows fall
Colors that fade on my wall
Dressed up nowhere to go
It's all in my mind I know
But it's alright now
We're on our way
Lay me down in the moonlight
So close to you
(So close to you)
Maybe we're just dreamers
Some dreams come true
Lips move but not a sound
When the words fall to the ground
Ooh, eyes watch but seldom see
The possibilities
But it's alright now
We're on our way
Lay me down in the moonlight
So close to you
(So close to you)
Maybe we're just dreamers
Some dreams come true
When we're together
There's nothing we can't do
(Nothing we can't do)
Maybe we're just dreamers

Some dreams come true, ooh
Movin' in circles that we create
(Ooh)
Seein' whatever we choose
(Ooh)
Hear only voices that call your name
And it's alright now
We're on our way
Lay me down in the moonlight
So close to you
(So close to you)
Maybe we're just dreamers

Some dreams come true
When we're together
There's nothing we can't do
(Nothing we can't do)
Maybe we're just dreamers
Some dreams come true
Lay me down in the moonlight
So close to you
(So close to you)
Maybe we're just dreamers
Some dreams come true
When we're together
There's nothing we can't do
(Nothing we can't do)
Maybe we're just dreamers
Some dreams come true ooh
